

Dominion Pre-Recorded Voice Messaging provides the personal touch to maximize your return on investment.

Dominion Pre-Recorded Voice Messaging allows you to create a consistent dialog with your customers and provides an immediate channel to inform them of important events, introduce key dealership personnel, confirm appointments or simply wish them a happy birthday. Instant communication with customers, no matter where they are, means higher response rates and improved deliverability. As part of our proven retention marketing cycle, you will garner faster results and retain more loyal customers.

Features

- Record your own message or use professional talent
- Stay informed of emerging trends, regulations and best practices through compliance webinars
- Target voice communications to non-email customers

Benefits

- Reduce the chance of missed opportunities by utilizing multiple means of communication
- Improve deliverability and response rates
- Integrates with your other marketing channels for maximum impact
