

Performance Boosters give dealers the strength from strategy, the confidence from coaching, and the power of a plan for Equity Mining success.

Kick-Off Performance Booster

RECOMMENDED FOR ALL NEW INSTALLATIONS

Nothing will set your team up for immediate equity mining success like our **Kick-Off Performance Booster**. Your dealership can accelerate equity mining results by supplementing our standard remote deployment with a customized, on-site launch of DealActivator. Before arriving on-site, your DealActivator Consultant will work with you to develop a unique and detailed training plan, based on your dealership's staffing and objectives in three key areas of opportunity: Service, Sales, & Inventory Management. Once on-site, your DealActivator Consultant will deliver strategic process coaching that will enable your organization to put DealActivator to work for you.

Re-Launch Performance Booster

RECOMMENDED FOR ALIGNING NEW STAFF

Tackle the negative impacts from turnover head-on with our **Re-Launch Booster Package**. This on-site package is focused on engaging staff and delivering results with DealActivator. Before the visit, your DealActivator Consultant will work with you to assess your current equity mining strategy and recommend specific training and process improvement opportunities. With the Re-Launch package, your DealActivator Consultant will come on-site and deliver strategic process coaching that will maximize the equity mining power of DealActivator.

Performance Booster

RECOMMENDED FOR ACHIEVING MAXIMUM RESULTS

For dealers ready to push into a higher gear, we offer the **Performance Booster package**. In addition to the standard remote services your store will enjoy, this package emphasizes your commitment to equity mining. Through ongoing performance monitoring, your DealActivator Consultant will monitor key success metrics and make specific recommendations for achieving even greater equity mining results. Joining you on-site, as needed, your DealActivator Consultant will conduct bi-monthly performance reviews and strategic coaching to ensure measurable, long-term success with DealActivator.

Features

- In-dealership instruction
- Dealer-specific strategies for success
- Tactical process coaching
- Ongoing performance monitoring
- Commitment to long-term equity results

Benefits

- Maximized staff engagement through a combination of group and individual training sessions
- Personal interaction, allowing dealership staff to express direct feedback to a DealActivator Consultant
- Process implementation planning & deployment that takes each dealer's staffing and business practices into account
- Facilitated management reviews of key success metrics that include specific recommendations for achieving even greater results
